Mr. Roger Breault
Rehoboth Public Access Corp., Inc
320 Anawan Street
Rehoboth, MA 02769

Dear Roger,

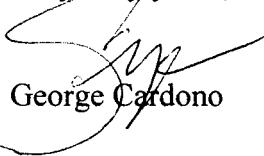

We have known each other for more than twenty years and I find it difficult not to respond fairly and objectively to your letter of February 22, 2010.

I did not show an interest in a membership in the "Public Access Channel activities". I did however submit your Rehoboth Public Access **Corporation** membership application. I used the very same official application on February 6, 2008 which was turned down. Your excuse then was the same as it is now. "An updated Membership Application will be forwarded to you once the Public Access Channel is activated and operational." Please be clear on this matter, I am not interested in Public Access Channel activities. I am interested in becoming a member of the corporation as outlined in your by-laws.

Further, your direct objections of Selectman McBride's so called agenda has absolutely no bearing on requests for membership in the "REPAC Corporation" and should not be included in correspondence to fellow citizens. You and your Board of Directors have displayed an incredible measure of arrogance toward The Board of Selectman and your fellow townspeople.

I fully expect my acceptance to Rehoboth Public Access **Corporation** by return mail.

Very truly yours,

George Cardono
